

# Enough

Ginny Blackmore

Enough  
Oh oh, yeah yeah  
Mmmmm

I'm in this relationship  
I don't ever wanna get out  
'Cause this relationship is nothing short of true true love

I am overtaking (overtaking) overtaking you  
Love you more than you love me and boy you know it's true  
But whoop de doo, I got enough for me and enough for you

I got enough for the both of us  
I got enough (I got enough)  
I got enough for the both of us  
I got enough (enough for us for the rest of our lives, enough for us 'til the day we die)  
I got enough for the both of us  
I got enough (I got enough)  
I got enough for the both of us  
I got enough (enough for us for the rest of our lives, enough for us 'til the day we die)

And when we're fighting babe, I'll be making up all day  
And when we're in the desert, I'll be tryna bring that rain

I am overtaking (overtaking) overtaking you  
Love you more than you love me and boy you know it's true  
Who gives a damn?  
I got enough for a woman and enough for a man

I got enough for the both of us  
I got enough (I got enough)  
I got enough for the both of us  
I got enough (enough for us for the rest of our lives, enough for us 'til the day we die)  
I got enough for the both of us  
I got enough (I got enough)  
I got enough for the both of us  
I got enough (enough for us for the rest of our lives, enough for us 'til the day we die)

Day we die  
Day we die  
Enough for us for the rest of our lives, enough for us 'til the day we die  
(I got enough for us)  
(I got enough for us)  
(I got enough for us)  
(I got enough for us)

I got enough for the both of us  
I got enough (I got enough)  
I got enough for the both of us  
I got enough (enough for us for the rest of our lives, enough for us 'til the day we die)  
I got enough for the both of us  
I got enough (I got enough)

I got enough for the both of us  
I got enough (enough for us for the rest of our lives, enough for us 'til the day we die)
