

Respirators ventilators
High and holy legislators
Give me agony
Pure agony
Vegetation indignation
Endless one-way conversation
Ain't living to me

And when I lose all my self-reliance
Don't keep me hooked up to no appliance

Don't keep me (if you love me)
Mmm.. don't keep me
Alive by science
Alive by science

I hear an angel banging on my door
Big Daddy on the top floor
Shouting "Free"
"You gotta be free"
This is my life cest mon affiare
Fat lady's singing
I don't stand a prayer
Now be a love and pull the plug on me

Now babe if you be true to our alliance
Please don't pump my lungs without my compliance

Don't keep me
Oh don't keep me
Alive by science
Alive by science

And when I lose all my self-reliance
Don't keep me hooked up to no appliance

Don't keep me
Yeah don't keep me
Alive by science
Alive by science

I beg you baby don't keep me (Alive by science)
Yeah baby don't keep me (Alive by science)
Oh baby don't keep me (Alive by science)
Aw baby don't keep me (Alive by science)
Oh don't keep me (Alive by science)
Shoo bop oh bo de oh yeah (Alive by science)
Family members mortgage lenders give me agony (Alive by science)
I'm stuck in bed seeing red (Alive by science)
Blood flows but my Brian is dead (Alive by science)
To be or not to be (Alive by science)
Baby don't keep me (Alive by science)
Don't you dare keep me (Alive by science)
