

Evermore

Gino Vannelli

You had me from the very first hello
Your eyes said all I'd ever have to know
And after all these years
Through the rapture and the tears
This much I know is true
I am evermore in love with you

And when the glory days had come and gone
It was you whose voice I heard that cheered me on
When my life came crashing down
My dreams in pieces on the ground
Because you saw me through
I am evermore in love with you

And when I could not give all of myself
You'd come and hold me in a warm embrace
And when my heart was tempted to stray somewhere else
I'd close my eyes and picture your beautiful face

If the sparkle in your eye should ever fade
And the twilight years should take my strength away
Should the whole world pass us by
And our spirits yearn to fly
When the days are precious few
I'll be evermore in love with you

And when the days are precious few
I'll be evermore in love with you
