

Burn For U

Gio

Yeah, ah, look
God, I been tryna keep you closer
Devil tellin' me it's over
Hard to hear the truth in the midst of war, a battle on my shoulders
All them times spent layin' wide awake, my thoughts keep gettin' colder
Matter of fact, I'd take the long road if it helps me keep my closure

I had to dream on, God, I'ma lean on you
Said it won't be long 'til all your dreams come true
But it's been hard to keep my focus, toe to toe with my emotions
Don't know who to put my hope in

It feels like every day's the same, you never learn, do you?
Don't get confused, it ain't what you do, my heart, it burns for you
It was on that cross, I paid it all, I took my turn for you
And it don't matter if you fall, my heart, it yearns for you
My heart, it yearns for you
You never learn, learn, learn
This love ain't somethin' you can earn, earn, earn
I toss my doubt and watch it burn, burn, burn
My heart, it longs for you, it yearns, yearns, yearns

And I'll admit the facts
Sometimes I feel I'm all alone, emotions counteract
Look at you and wonder your intentions, do you got my back?
God, I know you real, but sometimes feel like you ain't doin' jack
But I won't admit to that

I ain't trippin' on nobody, but I keep steppin' on myself
These people don't love me, good thing that I don't need they help
They actin' so buddy, they just that elf up on the shelf
I can do this on my own, nah, I'on need nobody else
That's a lie

Looked me in the mirror, face to face with all my pride
I write my problems down, that's how I really speak my mind
And I stay focused on His name, I got no one else to blame

It feels like every day's the same, you never learn, do you?
Don't get confused, it ain't what you do, my heart, it burns for you
It was on that cross, I paid it all, I took my turn for you
And it don't matter if you fall, my heart, it yearns for you
My heart, it yearns for you
You never learn, learn, learn
This love ain't somethin' you can earn, earn, earn
I toss my doubt and watch it burn, burn, burn
My heart, it longs for you, it yearns, yearns, yearns
