

ENTERTAINING ANGELS

Gio

I'm crying from the floor
There must be something more
I'm entertaining angels
We been here before
This stage was always Yours
We're entertaining angels

Where do I go when I'm alone?
Wanna be close to You, I wanna be known
But not in the way that I did back then
If I'm the way, all it used to be
Take all my desires

I swear I'm not
Caught up in the mix of my emotions
You can search my heart, I leave it open
Let this be the test to my devotion
I swear I'm not
Caught up in the mix of my emotions
You can search my heart, I leave it open
I know there's a reason I was chosen, yeah

I'm crying from the floor
There must be something more
I'm entertaining angels
We been here before
This stage was always Yours
We're entertaining angels

Yeah, how could I not just, uh
Give Him praise when praise is all He's owed
What are my options? Uh
Take or give, or let 'em take control
Tell me which way to go, tell me which way to go
You know the stage is Yours, I'ma just play the chords

I swear I'm not
Caught up in the mix of my emotions
You can search my heart, I leave it open
Let this be the test to my devotion
I swear I'm not
Caught up in the mix of my emotions
You can search my heart, I leave it open
I know there's a reason I was chosen, yeah

I'm crying from the floor
There must be something more
I'm entertaining angels
We been here before
This stage was always Yours
We're entertaining angels

I'm crying from the floor
There must be something more
I'm entertaining angels, angels
We been here before
This stage was always Yours

Entertaining angels, angels
