

fine by me!

Gio

Told the man upstairs there's a man down
Told my homie that I think I understand now
Fill the room in this the place, we gon stand out
'Cause I know that we be moving in Your plans now
I got 'em
I can't move life on without 'em
From the tomb to this room, I can't doubt Him
And you know He's coming soon, imma play it in this tune
Even through all of the gloom we still shouting

I know You're still working when I can't see it
I just need the faith enough to believe it
Every circumstance got me thinking "Father, let Your will be do
ne 'cause it's fine by me"
Yeah, it's fine by me
('Cause it's fine by)

I trust in Your word and You got a plan
No need to worry, it's in Your hands
If they still unsure, they don't understand
Lord, let Your will be done cause it's fine by me
Me and Holy Spirit and my brother that's a threefold
And if it's a door He opened up, it cannot be closed
Basking in Your presence, all the glory that I behold
And I got that blessing from the Father like a cheat code

Really in the field and we spreading the news
Ready for the harvest, we bearing the fruit
Children of the light we the match He the fuse
As long as we got God on our side we're never losing, yeah
