How much is this?
I don't think this would fit you
Well, I didn't ask you if it would fit I asked you how much it was
How much is this Marie

You cannot buy up your intellect right on the internet
God at the intersect I'm in line with the intimate
I've been up now but these vipers be venomous
Told me puff down there's a rate to your relevance, no
There ain't no limit with anything with His image on it
I cannot skim it the word is wisdom I'm living on it
This gift was given I'm driven the path I've been right on it
Goodbye to critics I speak the truth and they switch the topic

Free is me
I got that freedom I'm free indeed
Praise be to yahweh that's G O D
Watch how it grow when I plant the seed
Ohh
Freedom free
Free from the chains I don't need em G
I put in work till I see him breath
Weak on my own I need Elohim

If the price has a payed I got no price tag ooh
God made a way and brought my life back new
I have been made he went and payed my dues
If He got something to say you cannot not pick and choose
They like ooo you feeling great now
I don't play this ain't no playground
But I play sounds
I keep the scope I see the vision like a grey hound
I rep the east but follow sun set bay down

I'm a prodigy but I don't wear no Prada G
No apologies man this is where I gotta be
Yahweh made a way and that's just how it outta be
Yea it's X-Games mode till I go ahead behead the beast
Got the burden off my chest he took the weight off
Trip Lee cuz I ain't taking no days off
My team we always making the playoffs
I see then strap in for take off

I do not play with the rhymes
I do not follow your time
Really I pay it no mind
I see the vision divine
Gio the greatest man he so different he one of a kind
He should get label attention I know that one day he'll sign

I know that I gotta purpose
I know there's more to this life
I do not mess with serpents
But they keep calling me slime

"The problem with us never wanting to admit
That we had to disrupt things, violate things, sometimes go against our own
principles to get the freedom
If we can't admit what it costs we won't protect what we got!"
