Talking 'bout a greater-greater love

Ay, yeah, okay  
I'm talking 'bout that  
Great love, good news  
Have you heard about it?  
This life, I choose  
Spread the word about it  
I was so down bad in the worst way  
One man, two nails, then the third came

Ain't it funny  
How I made a bit of money?  
But the money don't change how I feel  
I just need to heal  
Nothing seems to work, what's the deal?  
Got me searching for a love that is real  
'Cause—

It's not giving it up just to get some (Get some)  
It's not getting dressed up for attention (For attention)

Talking 'bout a greater-greater love (Let's go)  
Talking 'bout a greater-greater love

Talking 'bout a greater-greater-greater

Hey, yeah. They don't know  
How it all went down on that road  
When He popped back up on the low-low  
I'm the one that he picks. No photo

Yeah, yeah, yeah

I ain't the same now  
Whole world flipped 'round when He came down  
I swear my whole life changed, when He came 'round  
I got my two feet planted on the safe ground

That's how I know

You won't find it in the club  
With the lights off (With the lights off)  
You can't buy it  
You don't know what the price cost (What the price cost)
