Remember late night drives up to your house
Just two lost souls tryna figure it out
We want it all but I'm just too scared

Not much has changed not nothin' new
We shared our lives what lovers do
You showed it all and I'm not prepared

I can't be your hero
We're heading straight into the place
We call ground zero
Hit a low now I know
I can't be your last call
We set the bar and showed our scars
Then watched it all fall
And I can't mend but I know a man who, can!

Remember late night drives just you and me
Made promises we couldn't keep
I showed it all and you weren't prepared
You're making problems in your head again darling just stop it
Don't know why you let 'em in every so often
I can't be your medicine
If I was honest, but I promise

I can't be your hero
We're heading straight into the place
We call ground zero
Hit a low now I know
I can't be your last call
We set the bar and showed our scars
Then watched it all fall
And I can't mend but I know a man who, can!

Ouuuu, ouuuuu
Ouuuu, ouuuuu
Ouuuu, ouuuuu

I can't be your hero
We're heading straight into the place
We call ground zero
Hit a low now I know
I can't be your last call
We set the bar and showed our scars
Then watched it all fall
And I can't mend but I know a man who, can!

Ouuuu, ouuuuu
Ouuuu, ouuuuu
Ouuuu, ouuuuu
