

# it's you

Gio

Every time it fails, I just say it's my fault  
Got my hands up in the air and my back to the wall  
I'm watching it all burn in the heat of it all  
No, I don't wanna fall down again

But Your peace reminds me I don't need to worry 'bout tomorrow  
I chased down everything that left me broken and hollow  
You said that You will guide me where I go You will follow  
In You is where I found me a friend

Cuz God, I know I almost risked it all  
I'm sorry  
Even when I fall and drop the ball  
You got me  
It's You, it's You  
God, I know I almost missed your call  
I'm sorry  
Even when the signals getting lost  
You got me  
It's You, it's You

I was two faced, too fake  
Tryna find a way out to new days just like Usain can't switch my lane now  
I crashed out almost blacked out oh I was broken  
I chased vain but You remain and call me chosen

But Your peace reminds me I don't need to worry 'bout tomorrow  
I chased down everything that left me broken and hollow  
You said that You will guide me where I go You will follow  
In You is where I found me a friend

Cuz God, I know I almost risked it all  
I'm sorry  
Even when I fall and drop the ball  
You got me  
It's You, it's You  
God, I know I almost missed your call  
I'm sorry  
Even when the signals getting lost  
You got me  
It's You, it's You
