

I've been floating outer space
Don't want nothing in my way
Know I'm covered in His grace
So I won't back up from my place
I'm bringing light to the darkest days
Going all out tryna find away
Trust in the one who has freed us
Steppin' my feet in the path He paved

I've been on the moon yea
I've been on the moon yea
I don't need nobody else to tell me what to do yea
I've been on the moon yea
I've been on the moon yea
See it in the distance know my God He coming soon yea
I've been on the moon yea
I've been on the moon yea
I don't need nobody else to tell me what to do yea
I've been on the moon yea
I've been on the moon yea
See it in the distance know my God He coming soon yea

I've been on the wave
Little boy watch what you say
Cuz we on the move andale
And we did not come here to play
When I'm in a room full of people
I somehow just feel like the prey
My life is a movie at regal
I doubt it will ever get played
I pick up my pen and I write out my thoughts
Yea I know I'm gon work till I find me a spot
And the enemy lurks but I'm never gon stop
I won't pop me a purk just to make it on top
But you know that I'm popping
Stick to the rock like I'm Stockton
Move with the faith how I'm walking
Eye to the sky I stay locked in yea
Look
Imma tell em how I really feel
I don't need a label calling I don't need a record deal
Guess my life is like a movie how it running out this real
Know that my God like the navy everything he does is sealed

I've been floating outerspace
Don't want nothing in my way
Know I'm covered in His grace
So I won't back up from my place
I'm bringing light to the darkest days
Going all out tryna find away
Trust in the one who has freed us
Steppin' my feet in the path he paved

I've been on the moon yea
I've been on the moon yea
I don't need nobody else to tell me what to do yea

See it in the distance know my God He coming soon yea

Look look
I am not who I pretend to be
To be honest thats my enemy
Now I'm moving with this energy
I don't play no games no jeopardy
I'm just working towards a better me
Better me
I'm coming second I hope that you see
Mission unlocked now that I got the keys
Thankful for life know it ain't guaranteed
Yea I pray extra hard when it's hard to believe
I'm on my moon walk
This is that moon talk
Out of the runes been grinding since noon
I do what He do plot
I got the recipe cookin
Pivot step watch the footing
Through the net like it's Brooklyn
We got the enemy lookin
Let them stare
Might go blind from all the glare
Walking through look at the view
I see the path and don't compare
M.I.A I'm just tryna find a way
Do not care bout what you say
I put my faith right on display
I go out and get it I don't take the credit
I look up to heaven God thank you for blessin
My hands to the sky man I'm done with the stressing
I get it from God you can stop all the guessing
These bars outer space I ain't talking astronomy
Young talent so they call me a prodigy
Young man on his spiritual odyssey
All my songs yea they really a novelty
Sheeeesh!

I've been floating outerspace
Don't want nothing in my way
Know I'm covered in His grace
So I won't back up from my place
