

masterpiece

Gio

You turned all my flaws into a masterpiece
Goodness and Your mercy running after me
Don't what I did, I don't deserve this love
But I lift Your name [?] above

You made something good out of a tragedy
Basking in the glory of Your majesty
Come Emmanuel and shine Your face on us
We join with the angels sending praises up

We join with the angels sending praises up

We join with the angels sending praises up

Pops told me, "Believe and they you'll see,"
That's the only reason that I need, I'm all in
Faith to make me walk upon the sea
Best believe that if I start to sink, I'm calling

I won't hold back no more, no, I give You my all
Picking me back, oh, whenever I fall
The light on my path, so show me where to go
Trust in Your Word, I know it's set in stone

I got my cup, You fill it up
Ten thousand reasons and enough to send it up
So I'ma give all of my praise and all my love
You said to come just as you are, straight from the jump
Now I got healing through Your scars, the Only Son
And looking back, I've come so far, there's more to come
You changed this heart, who I become?
You said it's done, You sent Your Son
Lift me up, my Champion

You turned all my flaws into a masterpiece
Goodness and Your mercy running after me
Don't what I did, I don't deserve this love
But I lift Your name [?] above

You made something good out of a tragedy
Basking in the glory of Your majesty
Come Emmanuel and shine Your face on us
We join with the angels sending praises up

We join with the angels sending praises up

We join with the angels sending praises up
