

# Mess It Up

Gio

Okay it's 5:30 a.m  
Alarm tellin' me to get up make friends  
My mom tellin' me to not trust satan  
He'll give you the world, but you'll still feel vacant  
Say I'm strong, but I lied 'cause I still feel weak  
Play pretend with my eyes 'cause I cannot speak  
Who am I to disguise hide my feelings deep, deep, deep

What if I lose it all?  
Tryna figure out where I'm 'spose to be  
What if I chose to fall?  
Will it mess your path and Your plans for me 'cause

What's this lil life without problems  
I keep it going and forget that I got 'em  
It's just me alone I don't know who else could solve 'em  
It feels like things changed just like the leaves in the autumn  
I'm afraid to mess it up  
Waste it all and lose your trust  
How I fall away so many times, but you still call me son  
Put my faith up in the one  
Know the enemy will come  
But this word my loaded, uh  
But this word my loaded gun, gun, gun

'Cause I don't wanna mess it up  
My chains say you're not gettin' up  
The weight just makes me throw my love away, away, away  
The winds and waves may come, but I know the one who holds the sea  
Sometimes it's so hard to trust remind myself to believe  
Spirit come on down I need your love heart on my sleeve  
Tell myself I'm fine so I just put this song on repeat

What if I lose it all?  
Tryna figure out where I'm 'spose to be  
What if I chose to fall?  
Will it mess Your path and Your plans for me 'cause

What's this lil life without problems
