

Higher, higher, higher, we want to lift You higher  
Higher, higher, higher, we want to lift You higher

I wasn't tryin' to visit Ya  
Thought I was lit and my life was a cinema  
I was in need up in Nineveh  
Bottled my sin up inside of a cylinder  
Visited Luci, wouldn't let You see  
I went and gave You the minimum  
Life was a movie, thought I could do me  
Gave in my all to get rid of Ya  
I couldn't stand it, not how I planned it  
I risked it all and I ended up damaged  
They want me gone, they want me vanished  
H-How many times will this end in a famine?  
Half of the time was just taken advantage of  
Heart full of scars so I bandage up  
Me versus myself, hard to manage us  
Where do I go when they, what?

Where do I go when they, what?
