

(Solar)

I rock the beat like a boulder
This ain't no luck ain't no clover
God shed his light on the whole earth
We just the army and soldiers
I do not play with no jokers
No I'm not playing that poker
I got that chip off my shoulder
We got that energy solar

I got the gleam I got the glow ow ow
We got the beam watch how it go oh oh
I got the gleam I got the glow oh oh
We got the beam watch how it go oh oh
I got the gleam I got the glow
We got the beam watch how it go
Ride with my team I stick with the bros
If we in the scene then God run the show
I got the gleam I got the glow ow ow
We got the beam watch how it go oh oh

Look

I got the beam it go right through you
They be like who knew
That I would be here making real change you still stuck on voodoo
Connect with God I'm like his speaker you could call it bluetooth
Cause I know worldly things will fall just like they is a loose tooth
Loose tooth wait I meant loose teeth
Won't lose my soul won't lose me
I ain't to judge no Judy
I kick the beat like Bruce Lee
And I stay focused please don't get up in my way
Won't hold back I shine that light in every step I take
Sunlight shining bright watch me glow
I don't need nobody else to knock me from my zone
I've been working on myself so I ain't walking with no clones
Solar panel with this energy I get it from the throne

Still gonna shine when the moon cover sun
He sent His son and said he be the one
Did it for free man it's already done
Why you talkin' bout war when its already won
Thought he was dead he was sleep uhuh
I talk to God in my sleep uhuh
Then He returned no receipt uhuh
Sin was control alt deleted
Darkness and shame now defeated
I'm thanking God He the reason
No longer struggle with meaning
Thankful that it's a new season
Say I'm a force but I'm not even Obi
Like why is you hating I doubt that you know me
They want me in silence want me to be low key
My songs are my work and these lives are my trophies
Don't hold me back uh
Imma go for the attack yea
They try to cover the truth
But I'll be the light through the crack
I got the truth and that's facts
I turn the speaker to max
I did not come for no scraps
Come to take back what I had
