I know that it's hard for me to trust you  
'Cause everytime I pray I feel like you don't hear me  
Try my best to put nothin' above you  
'Cause everything around me seems to fail me lately  
I don't know which way to go  
Everytime I try I feel like I'm losing it all  
I been searching tryna find you  
Can't deny truth  
Don't know who to call  
Got me screaming out  
S.O.S!  
Need you to save this wreck  
I'm just praying that you come through  
'Cause I'm not too good at gettin' you involved  
Got me screaming out  
S.O.S!  
Need you to save my breath

Kick it with the old me  
Didn't even know me  
Ready from the jump, I was on the run  
Need you to show me  
Looking for the one, he sent his Son  
Can't keep it lowkey  
Put it on these drums, when I'm feeling numb  
Leave it below me  
'Cause I, I got something I been longing for  
But I'm not, someone knocking at your door  
I thought I wouldn't cross this cliff  
Find it funny how I lost my grip

I know that it's hard for me to trust you  
'Cause everytime I pray I feel like you don't hear me  
Try my best to put nothin' above you  
'Cause everything around me seems to fail me lately  
I don't know which way to go  
Everytime I try I feel like I'm losing it all  
I been searching tryna find you  
Can't deny truth  
Don't know who to call  
Got me screaming out  
S.O.S!  
Need you to save this wreck  
I'm just praying that you come through  
'Cause I'm not too good at gettin' you involved  
Got me screaming out  
S.O.S!  
Need you to save my breath

Yeah, I know you got me  
Yeah, I know you got me  
Don't slip, I won't trip  
'Cause I know you got me  
Don't slip, I won't trip  
'Cause I know you got me
