

DOING IT AGAIN BABY

girl in red

I'm on a new level
Something's got me feeling like I could be inflammable
And I might be
I'm gonna light it up
Nothing's gonna stop me
If I say this is what I want
Yeah

Got the Japanese denim
And loafers on my feet
Lookin' like a rockstar
From the seventies
I had a premonition
And here's what I'll say
I got a big fat what
Get outta my way!

I'm on a new level
Something's got me feelin' like
I could be inflammable
And I might be!
I'm gonna light it up
Nothing's gonna stop me
If I say this is what I want

Got my Ray-Bans on
And I'm rolling with the boys
Having all this swagger was never a choice
My big fat ego is making me say
This 99 vintage has impeccable taste!

I'm on a new level
Something's got me feelin' like
I could be inflammable
And I might be!
I'm gonna light it up
Nothing's gonna stop me
If I say this is what I want

I'm loving this new self esteem
Like the one I had at seventeen
So unfazed by the world and it screams
And it screams
And I scream!

I'm on a new level
Something's got me feelin' so good
My energy is through the roof
Yeah nothing's gonna stop me now
