

# GHOST

## Girlfriends

I'm with your ghost tonight  
She said that I should bring us back to life but  
I know that's a waste of time  
'Cause you said you'd rather be dead  
Than see my fucking face again

Nobody looks like, nobody hurts like you  
Sit in your bedroom wastin' the afternoon  
Ruin my life with your words like a knife  
And you don't say a thing 'cause it's all in your eyes  
Nobody looks like, nobody hurts like you  
If true love never dies then baby look alive 'cause

I'm with your ghost tonight  
She said that I should bring us back to life but  
I know that's a waste of time  
'Cause you said you'd rather be dead  
Than see my fucking face again

This is a nightmare  
This is the one that came true  
Dreaming of something to do besides thinking bout you  
Wish I could I rewind  
Back to a past life  
Back to the good times  
Before the goodbyes  
This is a nightmare  
This is the one that came true

I'm with your ghost tonight  
She said that I should bring us back to life but  
I know that's a waste of time  
'Cause you said you'd rather be dead  
Than see my fucking face again

If this is the end  
Don't have to pretend  
That were gonna make it out alive  
It hurts to let go  
I'm here with your ghost  
For one last time

I'm with your ghost tonight  
She said that I should bring us back to life but  
I know that's a waste of time  
'Cause you said you'd rather be dead  
Than see my fucking face again  
'Cause you said you'd rather be dead  
Take a bullet to the head  
Than see my fucking face again
