

## Right Place Wrong Time

Girlfriends

Butterfly wing in a spiderweb  
Beverly Hills, can't pay the rent  
Crashed your new Mercedes-Benz  
That's life, life  
The models are all on heroin  
Plastic like a mannequin  
Fame is never permanent  
That's life, life

Why do we always have to be at the right place, wrong time?  
Finding you lost at 3 AM, you can't make up your mind  
Try to start a conversation, but the words got in the way  
Why do we always have to be at the right place, wrong time?  
At the right place, wrong time  
At the right place, wrong time, time

Drinking coffee with a cigarette  
Watching movies on the VHS  
It's 2 PM and I'm still in bed  
That's life, life  
Laughing while we're all depressed  
Having sex with all our friends  
Try to fill the emptiness  
That's life, life

Why do we always have to be at the right place, wrong time?  
Finding you lost at 3 AM, you can't make up your mind  
Try to start a conversation, but the words got in the way  
Why do we always have to be at the right place, wrong time?

(Only made it worse)

Why do we always have to be at the right place, wrong time?  
Finding you lost at 3 AM, you can't make up your mind  
Try to start a conversation, but the words got in the way  
Why do we always have to be at the right place, wrong time?  
At the right place, wrong time  
At the right place, wrong time, time
