

Crush Me Up

GIRLI

There's a TV in my mind
And you're on it all the time
Picture us the other night
Play it back a million times

And it's eating me up in the best way
One kiss, it wasn't enough, it was gateway

About to throw up from the butterflies
You're making me lovesick, I kinda like it
You created an appetite
In me I don't recognise

I want you undressed with my hands in your hair
Tell me come over, and I'm already there
The way you feel, no, it just isn't fair
Crush me up, take too much, I don't care

It's a nice kind of obsession
One that doesn't leave me guessing
'Cause it's not up for discussion
I'm in your head when we're not touching

(Not touching, not touching)
(When, when... not touching)

About to throw up from the butterflies
You're making me lovesick, I kinda like it
You created an appetite
In me I don't recognise

I want you undressed with my hands in your hair
Tell me come over, and I'm already there
The way you feel, no, it just isn't fair
Crush me up, take too much, I don't care

(Crush me up, crush me up, crush me up)
(Crush me up, crush me up, crush, crush, crush, crush...)
(Crush me up, crush me up, crush me up)
(Crush me up, crush me up, crush, crush, crush, crush...)
(Crush me up)

I want you all the time and everywhere
Never stop touching me, don't you dare
Got me all to yourself, don't wanna share
Crush me up, take too much, I don't care

I want you undressed with my hands in your hair
Tell me come over, and I'm already there
The way you feel, no, it just isn't fair
Crush me up, take too much, I don't care

(Crush me up, crush me up, crush me up)
(Crush me up, crush me up, crush, crush, crush, crush...)
(Crush me up, crush me up, crush me up)
(Crush me up, crush me up, crush, crush, crush, crush...)
(Crush me up)
