

# Nothing Hurts Like A Girl

GIRLI

I used to date a lot of boys  
Kinda felt like vanilla  
All the highs and all the lows  
Kinda felt like whatever  
Had to show them all the moves  
So I could feel any pleasure  
Never felt like forever

But then she got me hot  
Scarlet fever  
How could I ever not  
Wanna need her

No one knows me better  
No one gets me wetter  
Makes me fall in faster  
Takes over my world

But then my heart breaks harder  
I'm crying in the shower  
'Cause nothing feels quite like her  
Nothing hurts like a girl

More emotional than any man  
I thought that made it easy  
But what I didn't understand  
Is we both feel things too deeply  
And it's super hot  
And it's really great  
But when we fall it's from a higher place  
It's not all cherry chapstick and lemonade

She got me going  
God  
True believer  
Do anything she wants  
Just to keep her

No one knows me better  
No one gets me wetter  
Makes me fall in faster  
Takes over my world

But then my heart breaks harder  
I'm crying in the shower  
'Cause nothing feels quite like her  
Nothing hurts like a girl

She got me, hot  
Scarlet fever  
How could I ever not  
Wanna need her  
She got me going  
God  
God  
God  
God

God  
God

Nothing hurts like a girl  
Nothing hurts like a girl  
Nothing hurts like a girl
