

# Too Much Fun

GIRLI

Running out of time  
Spending all our money at the grime and garage nights  
My face looks weird when its too bright  
Please turn off the lights  
Let's make this one to forget is that alright?  
When I wake up I'll regret tonight  
Drink some shots, take off our clothes  
Gonna get a piercing on my nose  
Mum asks why? I dunno who knows?  
It's not like its me who chose  
I feel so sad and I feel so happy  
Please someone come and change the size of my nappy  
Cups for speakers  
Sidemen, bleachers  
The London crew  
We're just like you  
Wanna lose weight but I wanna get take out  
You're gay, I'm straight, do you wanna make out?

Bun a zoot  
Have a hoot  
Forget I told you I liked you  
I'm on pill number two  
Fei's got a fag so do you wanna twos?  
Drunk calls and drunk texts  
Twitter updates I regret  
I know I get that we're young  
But I feel like we're having too much fun

In my dream you take me to the side  
In my dream you say you've got feelings you can't hide  
I wish one day my dream could be in real life  
Cause in my dream I never wanna close my eyes  
In my dream you call me come and chill at mine  
In my dream it's me and you all of the time  
I wish one day my dream could be in real life  
Cause in my dream I never wanna close my eyes

We call ourselves squad  
It's an act, we want you to applaud  
It makes me feel so alive  
To chill in Grove and take a dive  
The odd ones out at the bee hive  
We do the skank, you do the jive  
We're the girls and they're the guys  
My big sister still makes me cry  
Do you ever get that feeling that we're taking too much time  
To realize  
We're livin' in lies  
In disguise  
But it feels so nice  
Its not about what your grades are or what job you end up to do  
As long as you like me and I like you  
We'll be too be too cute

Bun a zoot  
Have a hoot

Forget I told you I liked you  
I'm on pill number two  
Fei's got a fag so do you wanna twos?  
Drunk calls and drunk texts
