

Lie Love Lullaby

Girlpool

I always try to get her back
You know that's why I'm showing up like that
Pass out in a day dream
Come so much to memory
Twist me over the sink knock out my envy

Let it go
She comes through the door

She drives me crazy when she sings a lie love lullaby
Tease me in a sin too tight
What's a lie love lullaby
When we sing it every night?

When we sing it every night
What's a lie love lullaby
When we sing it every night?

My girl gives the world to you
She'll do just what you ask her to
Call my name behind the bar
Kiss me like you won't go far
I fear my innocence

I remember how it goes
Pushed against the door

She drives me crazy when she sings a lie love lullaby
Tease me in a sin too tight
What's a lie love lullaby
When we sing it every night?

When we sing it every night
What's a lie love lullaby
When we sing it every night?

I still wonder if you're not alone
Like did you move on I think I'd know
Cuz under the crying stars tonight
Her and I repeat the way we both know
How it always goes
I love the scarcity

Quiet cling pretend to me
Never quite enough for me
Sing a lie love lullaby
Last time tonight

And we sing it every night
What's a lie love lullaby
When we sing it every night?
(What's a lie love lullaby?)
When we sing it every night
And we sing it every night
(What's a lie love lullaby?)
When we sing it every night
And we sing it every night

(What's a lie love lullaby?)
When we sing it every night
When we sing it every night
