Let's be together, don't leave me alone
The night is only growing deeper, hurry and confess
Aren't you gonna do it? Aren't you?

You, you really don't know my heart
Oh you, you're like the shining waves

You, why do you keep making me anxious
(Aiyaa aa i yaiya)

(One one one two three four)
I'll count so honestly tell me
(Can't you tell me first)
I'm shy, I'm shy

The cool wind, the beautiful beach
You and I, the two of us are here
I want to throw away
All my worries to the ocean

Tell me now, tell me, tell me
That you actually like me
Let's hurry and leave for the ocean that is for us

Tell me now, tell me, tell me
You alone are enough for me
Pinky promise me
Tell me, tell me, tell me, tell me

I'm better than other girls, two is better than one
Let's be together from morning to night
Sing this song, say 1 2 3 4

Hey, aren't you gonna sing along?

The hot sun, the crashing waves
You and I, the two of us are here
I want to throw away
All my worries to the sky

Tell me now, tell me, tell me
You alone are enough for me
Pinky promise me
Tell me, tell me, tell me, tell me

Will you confess to me before the night passes?
I love you, I love you, with those sweet lips
The person to wake me up in the morning is you

Tell me now
Don't save the words "I love you"
Let's firmly hold hands and leave far away

Tell me now, tell me, tell me
I want to be with you
In this summer forever
Tell me, tell me, tell me, tell me
