

Diamond

Girls' Generation

When the snow begins to fly, above the smoky smoky sky
You came along like a snowflake, and brightened up my day
There is just one thing I need on this snowy winter day
Call me a fool to love you, but I want nothing but you

Oh I have to hear your voice, the one that brings me joy
And your warmth slowly wraps around my heart, boy can't you see
?

The lights are shining on me, and it's like a diamond
I'm spinning around, rocking around like a diamond
That's because I'm filled with emotions

Everybody's waiting for the holidays, candies and toys of silver trays
And there is one thing special, boy you are my present
There is just one thing I need on this snowy winter day
Call me a fool to love you, but I want nothing but you

Oh I have to hear your voice, the one that brings me joy
And your warmth slowly wraps around my heart, boy can't you see
?

The lights are shining on me, and it's like a diamond
I'm spinning around, rocking around like a diamond
That's because I'm filled with emotions
That's because I'm filled with emotions

You're shining, you're gleaming
Oh, you melt me like white snow, oh
You're shining, you're gleaming
And your warmth slowly wraps around my heart, boy can't you see
?

The lights are shining on me, and it's like a diamond
I'm spinning around, rocking around like diamonds
To your heart

The lights are shining on me, and it's like a diamond
I'm spinning around, rocking around like a diamond
That's because I'm filled with emotions
That's because I'm filled with emotions
