

## In My Dream

Girls Under Glass

Nights are for dreamers like you and me  
With my closed eyes I can see  
A big colour movie on a big bright screen  
And this movie is a lovely dream

In my dream you are part of my heart  
Giving all my love  
In my dream  
Welcome to my dreamland  
Walking hand in hand

Our lost thoughts come back in the night  
We know and detect whats wrong or right  
Nights are for dreamers they can become true  
I hope my next dream is just about you

In my dream you are in my vision  
Vision of our love  
In my dream you are part of my dream  
Give me all your love
