

My Condemnation

Girls Under Glass

Bad boys like me feel always well
'Cause I don't care about my world
About heaven or hell
Although my future is in my hand
I respect only humans
But not my environment

My condemnation it's all my fault
I don't tell all that shit
About saving the world
Assholes like me I will never change
The question is why should I?

The whole world is too strange
I like that weirdness
I enjoy all that shit
I enjoy it all day long

Until I have to swim in it
My condemnation and I don't care
I fuck the future
And I fuck it everywhere
