

## At Least We Tried

Giveon

I know I had said this was one thing  
Two hands on the wheel, that's how we cruise  
How'd I lose control and end up falling?  
Guess you got in my head before I knew, knew

Running around it but when did we cross the line?  
Running around it, I know that it crossed your mind  
Me too, babe, might lose but if

It don't work, at least we tried  
Never know till you let me in  
Can't let it go 'cause you back again  
Wondering if this don't work, at least we tried  
Love is always a losing game  
But in the end, I still wanna say  
At least we tried (We tried)  
Tried

We both understand this may not work  
It's clear we both agree but here right now  
Don't make a sound and let's just  
Wait for that day to come  
Till then, I'm all yours  
Just make me love you  
I can't get this feeling out my heart  
Without

Running around it but when did we cross the line?  
(Running around it, around it)  
Running around it, I know that it crossed your mind  
Me too, babe, might lose but if

It don't work, at least we tried  
Never know till you let me in  
Can't let it go 'cause you back again  
Wondering if this don't work, at least we tried  
Love is always a losing game  
But in the end, I still wanna say  
At least we tried (We tried)  
Tried

Which way we play it?  
It is what we make it  
What are we waiting for?  
'Cause I know there's something more with you  
Even exchanges give some to take it  
Maybe it's right, maybe it's wrong  
At the end of the night if

It don't work, at least we tried  
Never know till you let me in  
Can't let it go 'cause you back again  
Wondering if this don't work, at least we tried  
Love is always a losing game  
But in the end, I still wanna say  
At least we tried (We tried)  
Tried
