

# AVALANCHE

Giveon

I wanna be the one to make you feel  
Can you go and put up your hair? We'll get a lot of practice  
I remember how to make you smile  
Intuition says we're way too young to start a family  
But I've been thinking 'bout forever, my dear

Oh, and I forgot to mention other night, yeah  
Butterflies just hit me different when around you  
And it ain't no competition when you're right here  
Can't help but get this feeling every time  
Make it hard to find my words when I'm around you  
Is there anything to change my mind about you?  
I can have a million fans, but I need just one  
That's you

Baby, can I have this chance with you?  
Your love's like an avalanche  
I'm falling hard and falling for you  
And it don't make sense how good you are  
Give you all the finer things  
So good to you, I'm honest when I say  
Girl, you the one

Long calls, playing songs, we both love  
Fantasizing when you're with me  
Can't contain myself  
When I think 'bout, think 'bout, think 'bout  
Us in a big house, big house, big house  
Will it work out, oh, with you?

Oh, and I forgot to mention other night, yeah  
Butterflies just hit me different when around you  
And it ain't no competition when you're right here  
Can't help but get this feeling every time  
Make it hard to find my words when I'm around you  
Is there anything to change my mind about you?  
I can have a million fans, but I need just one  
That's you

Baby, can I have this chance with you?  
Your love's like an avalanche  
I'm falling hard and falling for you  
And it don't make sense how good you are  
Give you all the finer things  
So good to you, I'm honest when I say  
Girl, you the one
