

## BACKUP PLAN

Giveon

Say what's on your mind  
Lately you and I, you and I  
Been needing some love  
So quiet on the ride home  
Can tell that's when you made your mind up  
Don't wanna make you fight it, no, no

Something's different in the way you yell  
Something's missing lately, I can tell  
You're done listening to what I feel  
Not to mention, I've been treating you well

Oh, must got a backup plan  
You've got a back up man

You used to fight a little longer  
Now you choose silence over war  
Making small things bigger than they have to be  
Never was this easy for you was it to get mad at me

Something's different in the way you yell  
Something's missing lately, I can tell  
You're done listening to what I feel  
Not to mention, I've been treating you well

Oh, must got a backup plan  
You've got a backup man  
Oh, you got a backup plan  
You've got a backup man

I just had to finish something up  
The studio, I told you where I was  
Hello?
