

DON'T LEAVE

Giveon

You've been working my nerves
Second-guessing who was right first
All this energy on something minor
Can you hear me out?

Smiling while you're testing me
That's our love
Can hardly get the best of me
I'm calling you
'Cause, girl, I need it
I need your tension with urgency

Late at night
Never on time but you make it right
Whenever I try let you have your way
And still won't say, at the end of the day
I'm still up for the chase

Don't leave me behind
Acting tough on me won't get you what you need
Not too much for me, we were meant to be
Don't leave me behind
Acting tough on me won't get you what you need
Not too much for me, we were meant to be
Don't leave me behind

Don't you come in here trying to blame me
We already on the edge
The only time you should see red
Are the roses that I sent
I know

Prada's by your dresser
Tension causing pressure

Always get it right in the end
Only after things go left
So, won't you come to bed
My babe?

I don't mind it still
While you're next to me
I say

Say that you'll always be mine
Promise I won't change my mind
Say that you'll always be mine
Don't leave me behind

Say that you'll always be mine
Promise I won't change my mind
Say that you'll always be mine
Don't leave me behind
