

# Make You Mine

Giveon

You're as good as it gets for me  
Slow it down  
Don't wanna miss a moment  
Sit me down if you want  
Teach me, girl, I'm willing  
I'll be yours if you want  
Whatever you want

Got high hopes  
Just like you  
Truth be told, we both got things to lose (Things to lose)  
Can't go ghost  
Not like usual  
Because I'm ready for your love

What would it take here  
To make you mine for real?  
I got a taste and now can't keep off my mind

What would it take for real  
To make you mine?  
I got a taste and now can't keep off my mind, mind

Is it obvious  
That I'm falling, I'm lost in it?  
And I need it often on my way  
And, baby, no lie, I'm here to stay  
No games to play  
And, baby, I'm trying to say your love is good to me  
I'm saying this time you're mine, you're mine

Got high hopes  
Just like you  
Truth be told, we both got things to lose (Things to lose)  
Can't go ghost  
Not like usual  
Because I'm ready for your love

What would it take here  
To make you mine for real?  
I got a taste and now can't keep off my mind

What would it take for real  
To make you mine?  
I got a taste and now can't keep off my mind, mind
