

MUD

Giveon

Don't forget who put you in the lead
I'll take it all back
We playing for keeps
That's all the city sees
When you tell your story, you'll be selling everything 'bout me
Everything 'bout me

You run my name through the mud
Wipe that dirt off your shoes
You run my name through the mud
And you be lying to yourself so much, it sounds true

Right now, girl, that trust is out the window
Forget it, baby, I'ma keep it simple
Emotional blackmail, held you down, now I'm bad for you
Don't you know how that feels?
Your girls giving their two cents but that's all they're giving
I always thought that you're right for me, but who am I kidding?
When you changed your mind, it took a part of me, took a part of me

You run my name through the mud
Wipe that dirt off your shoes
You run my name through the mud
And you be lying to yourself so much, it sounds true
