

Tryna Be

Giveon

Tryna be
All that I can be for you
When you're not with me
It's hard because it's lonely
Honesty
I told them I'm in love with you
But they're okay with being number two

Drifting us apart
I ain't did nothing wrong, yet
I'm tempted when you're gone 'cause I don't do well alone
They want me more than ever now and I'm scared that I want them
too
I'm all in but I'm just
A man with flaws when the song ends
My options come calling
Just stop it, I'm trying

All that I can be for you
When you're not with me
It's hard because it's lonely
Honesty
I told them I'm in love with you
But they're okay with being number two

Don't wanna do you wrong but this not helping
Loving through a phone with poor connection
If I share my love would I regret it?
If you never know it's still a question
Don't go too far for too long I'm too on
Don't go too far for too long, I'll move on
Now they know my name, I see you callin'
Don't see you often, it's hard but I'm tryna be

I'm all in but I'm just
A man with flaws when the song ends
My options come calling
Just stop it, I'm trying

All that I can be for you
When you're not with me
It's hard because it's lonely
Honesty
I told them I'm in love with you
But they're okay with being number two
