

VANISH

Giveon

You said you hate me and you wish I would vanish
Okay, you love me, baby, I speak your language

Sayin' things you don't mean
To someone that means the world to you
You see what I mean?
Sayin' things you don't mean
To someone that means the world to you
You see what I mean?

You said you hate me and you wish I would vanish
Okay, you love me, baby I speak your language

Sayin' things you don't mean
To the one that means the world to you
You see what I mean?

I say, "I hate you, too, and I wish you would vanish"
But, babe, I love you and I think you understand it

Sayin' things I don't mean
To the one that means the world to me
You see what I mean?
Sayin' things I don't mean
Girl, you mean the world to me, yes, you do, ooh

I, I know
I'm sorry
I can be a hypocrite
I got stuff to work on
You got stuff to work on
But, we're gonna, we're gonna make it work
I love you
