I can't get you far
With someone who let's me go
We'll try in two hours
Maybe with all the ?
This not spins alone

We're back in the light today Back in the light today...

Can't stay where we are Stocked in this broken place We lose in the dark Maybe it's best this way It's time, we move on

We're back in the light today Back in the light today...

Woke up please down
Suddenly it's clear
Suddenly it's obvly to see
Woke up all alone
But I can be enough alone

I'm back
Back in the light

First time it's so bright
It looks like a lovely day
And I know that it's right
We both gonna be ok
We're back in the light today
Woke up please down
Suddenly it's clear
Suddenly it's obvly to see
Woke up all alone
But I can be enough alone

I'm back
Back in the light

I'm back
Back in the light
