

Disco

Gjon's Tears

Glitterin' gold and flashing lights
It's a vertigo delight
I kiss the sky in ecstasy
With your touch all over me
Got me so high with all your tricks
You're the tingle on my lips
I feel your love in every beat

You are the reason I feel so fine
You are the reason

And I just want to dance with you in the middle
And I just want to dance with you in the middle
Cause the night just feels so fine when we are together
I just want to stay high

Hallucinations dance with me
It's a wicked remedy
Euphoria dripping off the walls
I'm addicted to it all
I feel so empty without you
You're the sugar, I'm the fool
How can candy be so cruel?

You are the reason I feel so fine
You are the reason

And I just want to dance with you in the middle
And I just want to dance with you in the middle
Cause the night just feels so fine when we are together
I just want to stay high

And I just want to dance with you in the middle
And I just want to dance...

You are the reason I feel so high
