

Different

Glades

You're on my mind not just a little
Piece of my heart you took the middle
My therapist
Ain't scared of this
I know

I left my hair tie in your jacket
It would be nice if I could have it back
Oh no, I guess
You'll have to see
Me again

It's hard for me for say cause I've heard enough lies
But when I'm with you I don't need to think twice, no
Twenty something years, where you been all my life?
I don't wanna let this go, no

I swear it's different cause you're not scared to say
You've always been in your feelings before it was the rage
Last night was the first time that I
Felt safe wasn't tongue tied
Different in every kinda way
And I know you love me

I wanna know about your weekends
Did you go out or did you stay in touch
With your friends from school
And your cousin twice removed?

Twenty something years, where you been all my life?
I don't wanna let this go, no

I swear it's different cause you're not scared to say
You've always been in your feelings before it was the rage
Last night was the first time that I
Felt safe wasn't tongue tied
Different in every kinda way...

I swear it's different cause you're not scared to say
You've always been in your feelings before it was the rage
Last night was the first time that I
Felt safe wasn't tongue tied
Different in every kinda way
And I know you love me
