

Enemy

Glades

I feel the alarms
Go off in my head
I don't wanna say something I might regret
It cuts like a knife
The words that you said
Oh the damage is red

Goin' round and round
Trippin' over words
We just can't decide
Who's wrong and who's right
I won't go to sleep
With you still mad at me
Keep on going till it feels right

Cause I don't want an enemy
So careful what you say to me
We've been here before
I don't want a war
Cause I am not your enemy

This isn't how it's meant to be
Cause you know what you mean to me
We've been here before
I don't want a war
Cause I am not your enemy

We went way too far
Can we love again
Emotion is fragile the deeper you get
You're stuck in your ways
And I'm stuck in mine
A fight that nobody can win

Goin' round and round
Trippin' over words
We just can't decide
Who's wrong and who's right
I won't go to sleep
With you still mad at me
Keep on going till it feels right

Cause I don't want an enemy
So careful what you say to me
We've been here before
I don't want a war
Cause I am not your enemy

This isn't how it's meant to be
Cause you know what you mean to me
We've been here before
I don't want a war
Cause I am not your enemy

Goin' round and round
Trippin' over words
We just can't decide

Who's wrong and who's right
I won't go to sleep
With you still mad at me
Keep on going till it feels right

Cause I don't want an enemy
So careful what you say to me
We've been here before
I don't want a war
Cause I am not your enemy

This isn't how it's meant to be
Cause you know what you mean to me
We've been here before
I don't want a war
Cause I am not your enemy
