

Goodbyes

Glades

I sleep a little better when I'm sleeping right next to you
And I feel a little better when I'm feeling it all with you
I never wanna leave but sometimes I have to
And I don't wanna say it
Cause I'll miss you like crazy

It's getting hard to tell whose tears are on the floor
No, it doesn't make it easier that we've been here before
I'm counting down the days, it's the only time I'll keep score
I don't wanna say it
I need you to say it

Reminiscing on the fly
But before we said goodbye
I could promise not to cry
But then that would be a lie
Cause I'm lonely
And I don't want you to know it

Who said goodbyes are good?
I never understood
How leaving you behind
Could ever be alright
I've tried a thousand times
But I can't hide the truth, no
Cause when it comes to you, oh
Goodbyes are never good

I'm looking at the stars and I wish I could share the view
Cause when the sun goes down I know it's shining on you
And talkin' in different time zones is hard to do
I don't wanna say it
Cause I'll miss you like crazy

Reminiscing on the fly
But before we said goodbye
I could promise not to cry
But then that would be a lie
Cause I'm lonely
And I don't want you to know it

Who said goodbyes are good?
I never understood
How leaving you behind
Could ever be alright
I've tried a thousand times
But I can't hide the truth, no
Cause when it comes to you, oh
Goodbyes are never good
Goodbyes are never good
Goodbyes are never good
Goodbyes are never good

Reminiscing on the fly
But before we said goodbye
I could promise not to cry
But then that would be a lie

Cause I'm lonely
And I don't want you to know it

Who said goodbyes are good?
I never understood
How leaving you behind
Could ever be alright
I've tried a thousand times
But I can't hide the truth, no
Cause when it comes to you, oh
Goodbyes are never good
