Keep It From You

Glades

I've been keeping little things away from you
Just outside of your view
I was banking on a miss, I'm bound to this
I can't keep playing cool

You go on and on and leave me vacant
Hang me out to dry and call it over
Running out of lies to keep it waiting
You're much better off to walk away

I know if I keep it from you, keep it from you (ocean)
Drives around in Malibu
I know if I tell you the truth, tell you the truth (oh my)
This is so much better if I keep it from you

Better, better
Better if I keep it from you
Better, better
Better if I keep it from you

It's easier to lie then tell the truth
It's like I'm split in two
I'm an enemy to me, not hard to see
Got nothing to do with you

You go on and on and leave me vacant
Hang me out to dry and call it over
Running out of lies to keep it waiting
You're much better off to walk away

I know if I keep it from you, keep it from you (ocean)
Drives around in Malibu
I know if I tell you the truth, tell you the truth (oh my)
This is so much better if I keep it from you

Better, better
Better if I keep it from you
Better, better
Better if I keep it from you

You go on and on and leave me vacant
Hang me out to dry and call it over
Running out of lies to keep it waiting
You're much better off to walk away

I know if I keep it from you, keep it from you (ocean)
Drives around in Malibu
I know if I tell you the truth, tell you truth (oh my)
This is so much better if I keep it from you

Better, better
Better if I keep it from you
Better, better
Better if I keep it from you
