

# Summer's For Lovers

Glades

I'm laying right back  
Skipping to the next track  
Got my feet up on the dash in the sun  
You drive with one hand  
Other caught in romance  
Kinda dangerous but Summer's for lovers, for lovers

I knew I loved you from the very very start  
You had me spinning now I think I'm seeing stars  
I love the way you're always playing with my patience  
Yeah, you're the one I want all summer long

I kinda feel  
We could go far  
We're more than just a spark  
You bring the heat  
I like the warmth  
With the windows down and the speakers up

I'm laying right back  
Skipping to the next track  
Got my feet up on the dash in the sun  
You drive with one hand  
Other caught in romance  
Kinda dangerous but Summer's for lovers, for lovers

Baby, I'd cruise  
Where ever with you  
All I know is Summer's for lovers, for lovers  
Baby, I'd cruise  
If you were my view  
All I know is Summer's for lovers, for lovers

I kinda feel  
We could go far  
We're more than just a spark  
You bring the heat  
I like the warmth  
With the windows down and the speakers up

I'm laying right back  
Skipping to the next track  
Got my feet up on the dash in the sun  
You drive with one hand  
Other caught in romance  
Kinda dangerous but Summer's for lovers, for lovers

Baby, I'd cruise  
Where ever with you  
All I know is Summer's for lovers, for lovers  
Baby, I'd cruise  
If you were my view  
All I know is Summer's for lovers, for lovers
