

Tension

Glades

I feel the tension
It's in the air
But we won't speak out loud
We just use our mouths
Get your attention
Hands through my hair
Cause we're all small talk
When it hurts, we walk

And it's crazy when I think about
All the things we're mad about
But we keep on dancing round
I think it's time to let you know
I don't wanna let you go
But we gotta talk it out

Cause the tension makes it better baby
And I like the way you drive me crazy
We can argue all night
But if we do it right
Then the tension makes it better baby

So close to talking
Tip of my tongue now
But we still tip toe through
What we wanna do
Imagine saying
Saying we're sorry
You can talk to me
It's like therapy

And it's crazy when I think about
All the things we're mad about
But we keep on dancing round
I think it's time to let you know
I don't wanna let you go
But we gotta talk it out

Cause the tension makes it better baby
And I like the way you drive me crazy
We can argue all night
But if we do it right
Then the tension makes it better baby

(Tension makes it better, makes it better, makes it better)

Cause the tension makes it better baby
And I like the way you drive me crazy
We can argue all night
But if we do it right
Then the tension makes it better baby
Makes it better baby

Cause the tension makes it better baby
And I like the way you drive me crazy
We can argue all night
But if we do it right

Then the tension makes it better baby

(Tension makes it better, makes it better, makes it better)
