

Body candle lights

Gladiator

Nice summer weather
I want you girl, so we can ride know
A time, we cannot rule it
We'll get off listening to hi-fi

Body candle lights
Let me see you thrilled
The soul lives a life time
Body candle lights
What you want can use
The soul lives a life time
But my body isn't

Glance, questions, answers
It really doesn't matter at all
It isn't my style, to speak these useless words
To fall, to fly, this all we can try

She said She loves my way
I feel so good today
I'm not afraid to lose my own
