

Cosmocrose

Gladiator

I hoist my eyes to you, dream
so strong and so magic rose
It's the night, I'm fully being
so free and so naked soiled
Your past is neverending
and still young eagerly cold
Close! Appoint my breath
I need your claw, body odour

It's coming like blow up!
coming it's so strong
too strong
Comomomo
Can you feel it in your veins?
Cosmosrose!

Every your mysteriouser
place irritates my groundless taste
I embrace, here on my own,
All and all your infinity
Comomomo
If you wouldn't have to be
I won't should have been too
I feel the cobweb trap
I've been flabby, now I'm strong
