

Third eye

Gladiator

Once to be behind me
to open up third eye, I see!

To get out from my cage
growing inside of me
all the blackness
in self to make dead
Taking the best ideas
taking the fantasies
soul'n'my life ever rescued
At last boy open third eye
You can see the world clear!

Open your third eye and live! Live!

Once to be behind you
Open up third eye. Look!

Make your blidness killed
The evil disappeared
In everybody his owns third eye
Watch from behind you
Watch your evil, good
By own spirit all you can do
At last folks open third eye
and you can see the world clear!

Open your third eye and live!

Once to be behind me
can to see each my limb

Feel the moon what heats
satisfies your peace
Make the symphony for all to tears
Brings you new reborn
by own spirit all you can do
Make symphony to tears!

Open your third eye and live!
