

Just A Little

Gladys Knight

All you've got to do is move your feet
Just a little
Don't you worry baby, dance with me
Just a little, yeah
As long as the world keeps spinning
We're alright, yeah
So come on, take my hand get down tonight
Ohh-oh

It don't matter who you are
Love can carry you away
Just keep shinning, you're a star
Golden like the summer day

It don't matter who you are
Love can carry you away
Just keep shinning, you're a star
Golden like the summer day

Can you feel it in your heart flowing through your veins?
Let that music play that part and carry you away, yeah
Oh, yeah
Carry you away (just a little bit)
Carry you away

All it takes is just a little time
Just a little, oh
Put your mind at ease, sit back and watch
Just a little, yeah
As long as you're smiling, trouble fades away
Away, away, away
Just like a diamond, we'll shine bright for a better day

It don't matter who you are
Love can carry you away
Just keep shinning, you're a star
Golden like the summer day

It don't matter who you are
Oh, love can carry you away
Just keep shinning, you're a star
Golden like the summer day

I bet you feel it in your heart flowing through your veins
Let that music play that part and carry you away, yeah
Oh, yeah
Carry you away (just a little bit)
Carry you away

Can you feel it flowing through your veins?
Let that music play that part and carry you away
Just a little bit
Carry you, carry you away (just a little bit)
Carry you away
Just a little bit
Carry you away
