

Just Take Me

Gladys Knight

Look into my eyes, this waiting's tearing me apart
Can't you see, with me you'll never be alone
Give me your heart, we must never be apart
Don't you know that what I feel for you is love

Just take me, say you want me
Take my breath away
It hurts to be in love with you
So either way, just take me in your arms
You can believe in me
When god created love it was for you and me
Just take me

Look into my eyes and you'll finally realise
That you'll always be the light that shines in me
Give me your heart, like you gave me from the start
You will know that what I feel for you is love

Just take me in your arms, you can believe in me
Cos once upon a time your smile, it captured me
When god created love it was for you and me
Just take me, fill me with this dream eternally

Just take me, say you want me, take my breath away
It hurts to be in love with you, just show me the way
When god created love it was for you and me
Please take me, fill me with this dream eternally
Just take me, never let me go

Just take me in your arms, you can believe in me
Cos once upon a time your smile, it captured me
Just take me, fill me with this dream eternally
Just take me, say you want me, take my breath away

It hurts to be in love with you so show me the way
When god created love it was for you and me
Please take me, fill me with this dream eternally
Just take me, take me, never let me go
Just take me, just take me, don't let me go
