

Count It Up

Glaive

Count it up, count it up
Baby, please don't let me go
Count it up, count it up
Pray my wallet never folds
Count it up, count it up
Yeah, he tried, it wasn't close
Count it up, count it up

You either get it or you don't
You're either with me or opposed
Say your answer now or I'll assume that it's a no
Pain is part of everything, you need to let it go
I'm a mirror image of all of the bros

Count it up, count it up
Baby, please don't let me go (You either get it or you don't)
Count it up, count it up
Pray my wallet never folds (You either get it or you don't)
Count it up, count it up
Yeah, he tried, it wasn't close (You either get it or you don't)
Count it up, count it up
All the silver moving slow (You either get it or you don't)

You either get it or you don't, put it a thousand times before
You live, you die, you see it all and in a second, it is gone
If you know, you know and if you don't, I guess you don't
Certain beauty in the sky, certain clusters in the stars
A certain distance in my eyes, I'm so rigid in your arms
I suppose it's such as life, gotta win on my own
I was so ready to die, I've got solace in the art
I've got solace in the dark, huh, huh, huh, huh

You either get it or you don't
You're either with me or opposed
Say your answer now or I'll assume that it's a no
Pain is part of everything, you need to let it go
I'm a mirror image of all of the bros

Count it up, count it up
Baby, please don't let me go (You either get it or you don't)
Count it up, count it up
Pray my wallet never folds (You either get it or you don't)
Count it up, count it up
Yeah, he tried, it wasn't close (You either get it or you don't)
Count it up, count it up
All the silver moving slow

If I can't bring my weird friends then I won't go
