handle me

Glaive

Please don't call me baby
Fuck me like you hate me
I wonder what you say bout me when I'm not around
I spend time bouncing off the walls
She spend time shoppin' at the mall
I'm screamin' out but you can't hear me at all

And every time I text you don't reply
And I can see it in your eyes
And you don't like me how I like you
Swear to god that shits alright
Used to be down bad, out sad
Now I don't care in the slightest
Cause like everything I'm touching turns to gold just like I'm Midas

And all the birds and the bees
Never meant nothing to me
You always fronting, always stunting
Got me down on my knees
I need you bad
I need you like some money in my hands
I need you bad
And like I won't buy you shit, but I can get you in your bag

The shit you say got no meanin'
I got no god to believe in
She change her mood every season
I'm havin trouble believing
Leave me on read through the night
I won't pay this shit no mind
Call me I'm pressing decline

Please don't call me baby
Fuck me like you hate me
I wonder what you say bout me when I'm not around
I spend time bouncing off the walls
She spend time shoppin' at the mall
I'm screamin' out but you can't hear me at all
And every time I text you don't reply
And I can see it in your eyes
And you don't like me how I like you
Swear to god that shits alright
Used to be down bad, out sad
I don't care in the slightest
Cause like everything I'm touching turns to gold just like I'm Midas
